Subject: Maintenance of the facility of Sanitary Napkin Vending Machine & Incinerator in the College

Dear Madam,

Our institution, being women's college, is very concerned with health & hygiene of the students. We have installed Sanitary Napkin Vending Machine & Incinerator in the College in the Session 2016-17, which was in use since then. With reference to the previous discussion, I would like to suggest you to take up this as a project to provide sanitary napkins to students and also maintenance of the installed machinery accordingly.

It would be a great contribution if your executive body approves this and this project will be run by our organization for coming years. Please discuss and revert back to me on this.

Thank you.

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial

In making those risk assessments, the auditor considers internal control relevant to the trust's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the trust's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for my audit opinion.
