**Feedback Report on Curriculum**  
**( Students, Teachers, Parents, Alumni )**  
**Session 2023-24**

For the session 2023-24, students, their parents, teachers, and students were given a new questionnaire which was distributed on Whatsapp for online feedback. Posted on April 4, 2024. A total of 87 Students, 44 Parents, 21 Teachers and 31 Alumni students participated and expressed their thoughts.

1. Parents expressed their satisfaction with education, assessment, safety and discipline in the college.
2. The syllabus is good and interesting, but the syllabus has to be completed in a hurry within the allotted time. A change in curriculum is expected to increase employment. The library has a lot of bibliography and course based books and it is useful. The college has a favorable environment for research from the administration to the teachers.
3. The ex-students of the college always express their satisfaction with the many favorable changes the college has made. Saying that they are proud of the college, Alumni expressed their satisfaction with education, teachers, discipline, and various activities.
4. 47.1% students of Marathi medium and 52.9% students of Hindi medium filled the feedback form. Is the syllabus updated? In response to this question, most of the students expressed their mind that they are updated in English, Marathi, and Sanskrit language. Similarly, they expressed the opinion that the books of the changed syllabus have been late to arrive.
5. Students get course books in the library as per rules. Books on the subject are available but the language of the book seems difficult. He expressed the opinion that the course is interesting but it is not totally job oriented. They are of the opinion that it is very beneficial if the exams are conducted twice in the academic year before the university exams. The syllabus is good but the students have also suggested that there is a skill based change in it.

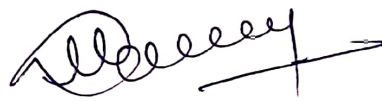

purpose was not being fulfilled and the job competency is still lacking. They expressed satisfaction that the college exams are regularly held twice a year before the university exams so preparation for the exams is good. Along with this, to prepare for the exam, there are activities like assignments, quizzes, visits, etc. based on the syllabus, so the study becomes interesting and preparation is done. Some students expressed that the syllabus is useful but seems a bit complicated. They also expressed the opinion that some changes should be made in the curriculum. Other than this person there are no special instructions.

**Action taken Report:-**

1. After receiving the feedback on curriculum from students, parents and alumni an analysis was done. The board members in the college representing different subject boards in the RTM Nagpur University were communicated about the same regarding complications and difficulties and need to incorporate modules on job competency.
2. To upgrade the job competency quotient of the students, a host of parallel Skill development courses without fees like Tally, Nursing, Beauty Parlour, Jute Bag making have been started.
